

Infectious Diseases Clinical Research Consortium

PUBLICATIONS

QUICK REFERENCE GUIDE

Primary Manuscript

Due for review **6 months** following study database lock.

Secondary Manuscript

Due for review **3 months** after publication of primary manuscript

For authorship guidance, see [ICMJE Recommendations](#)

IDCRC Citation Statement

"Supported by the Infectious Diseases Clinical Research Consortium through the National Institute of Allergy and Infectious Diseases, part of the National Institutes of Health, under award number UM1AI148684. The content is solely the responsibility of the authors and does not necessarily represent the official views of the National Institutes of Health."

If the work was directly supported by VTEU funding or other sponsors, they should also be acknowledged accordingly and in keeping with the terms of any applicable CTAs, MOUs, or other collaboration and sponsor agreements.

Publication of Preliminary Results

Publication of preliminary results prior to final CSR may be considered for high impact studies. Requires DMID and IDCRC approval. Requires that the approved protocol explicitly allows for this release.

Publication Review Requirements

All abstracts and manuscripts using IDCRC data or samples must be submitted to the IDCRC CPC KFC for review prior to submission. See IDCRC MOP for Public Health Emergency Exception.

All abstracts and manuscripts referencing the IDCRC grant or funded with IDCRC funds must be submitted to DMID for review, including those related to Public Health Emergencies.

[Publication Review Request Form Link](#)

Sign-off by authors, collaborators, and entire protocol team should be obtained prior to submission for review.

Review Timelines

Manuscripts: 5-7 business days.

Abstracts/Posters: 3 business days.

Revisions may require additional reviews.
