Concept Generation

NIH/NIAID/DMID | **IDCRC/LG** | **VTEUs**

Industry | **HHS/BARDA/FDA** | **Public Health e.g. CDC, WHO** | **Broader Scientific Community**

ICP Submitted, Passes Screening Review for Completeness

Expert Working Groups

Formal review – appropriateness, mission compatibility, science

Malaria/Tropical Diseases | **Enteric Diseases** | **Emerging Infections** | **STI's** | **Respiratory Diseases** | **COVID-19**

ICP Appropriate for Mission, Priorities and Scientifically Sound

IF ICP not suitable for mission, priorities of IDCRC, or judged not scientifically sound: **Feedback provided to submitter**

Feedback provided to submitter: invitation from EMT* to submit expanded concept (ECP)

ECP prepared and submitted

ECP reviewed by same EWG; Formal Review with Scoring

IF ECP does not score well (see full criteria for scoring), not recommended for protocol development: **Feedback provided to submitter**

ECP meets priority, scientific standards, scored highly

Final Decision on approval to move to full protocol development and funding made by EMT and DMID Leadership

*EMT = Executive Management Team of IDCRC
